COUNCIL & GOVERNMENT MANAGEMENT

exploren

OVERVIEW

Exploren is a **complete software solution** for your whole EV charging network. The diverse capabilities of the Exploren management platform will unlock the potential of your EV Chargers.

Easily manage and track all chargers across your council area from one platform. Aid in the sustainable revolution in Australia by providing easy to use and accessible charging options.

EV CHARGING MANAGEMENT & COUNCIL/ GOVERNMENT

Councils and Governments play a key role in supporting the adoption of EV vehicles in Australia. Supporting residents through public charging makes owning an EV easier as well as providing an potential stream of revenue for the local council.

Councils who advertise their new public EV chargers routinely report an increase in foot traffic and public perception.

Exploren will fully support the implementation of your chargers. The easy to use but feature-packed platform will manage, track and unlock the full potential of your EV chargers. Future-proof your area now.

ex

FEATURES

WHY CHOOSE EXPLOREN

User Management

user management provides the ability to group users into different categories. You will be able set a specified tariff for this group when using your own charging network.

Site management

Site management allows the head operating body of a business to oversee all their sites while retaining privacy and independence between the individual sites.

Taffis/ User Billing

You can choose the cost of charging per kw/h charged to the users. Either simply offset the costs of energy used or generate a revenue stream with a higher rate. Tiered tariff levels can also be applied.

Local support

Exploren is Australian owned and hosted on Australian servers to provide fast speeds. We are compliant with all Australian data protection laws to ensure the safety of our users.

Data Collecting

With data collecting, you will have greater understanding of your EV charging network. This data will aid in making informed decisions to optimise the size, efficiency and energy usage of your chargers.

COUNCIL & GOVERNMENT PRICING
